ESMValTool Workshop 2023

30-31 May, 2023

Hi all! There is a wrong path in the config file (`~/.esmvaltool/config-user.yml`). You need to add `obsdata` at the end of the first path. Should be:

OBS6: `[/projects/NS9560K-datalake/ESGF/obsdata, /scratch/$USER/ESGF/obsdata]` - I updated the esmvaltool github repository so that it is correct now.
